# Installation

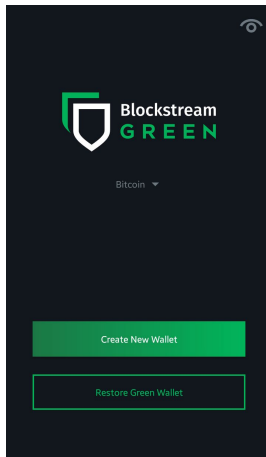

Once the application is downloaded and installed, you can configure your wallet.

// GreenAddress Icon

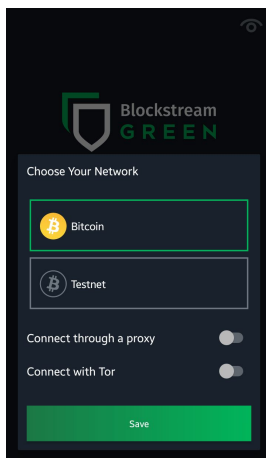

// GreenAddress Logo

## 1.Start

Launch the Application by clicking the icon  You will see the welcome screen. This screen is visible for new installation only.

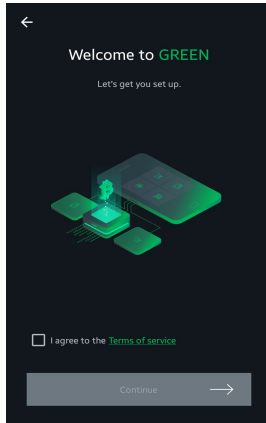

Once you have a wallet, there is a button 'Log in'.

## 2.Choose Bitcoin

It's by default. The drop-down menu offers an option to activate additional security features. Once you click on it, you can add 'Proxy' and 'Tor' connection (these options are for advanced users).

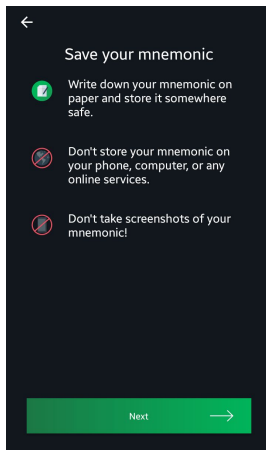

Choose *Bitcoin* and click 'Save'.

### 3. Activate

On the next step, you can start the setup. It requires to agree with the wallet's Terms and Conditions.

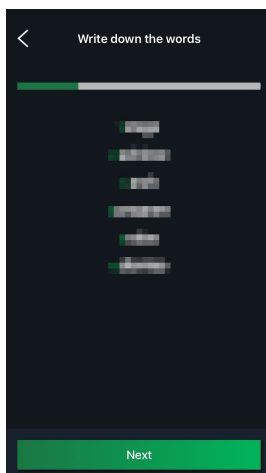

Once it's done, click 'Continue'.

### 4. Security

On the next step, you will see a security warning about how to store your seed phrase for recovery.

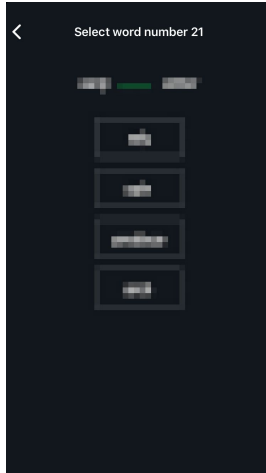

That's your private key - the most crucial thing of your bitcoin wallet. It's good to follow the '*Best Practice*'.

### 5. Recovery Phrase

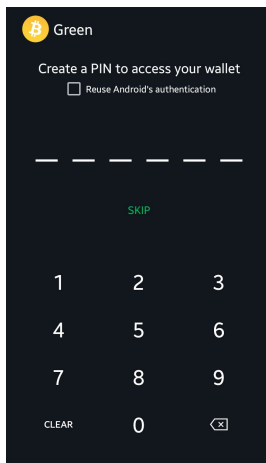

On this step, the app will display your mnemonic phrase

- You will see a 24-word recovery phrase in 4 following steps
- 6 words per level
- Write all words in the exact order

## 6. Confirm your secret phrase (no screenshots allowed)

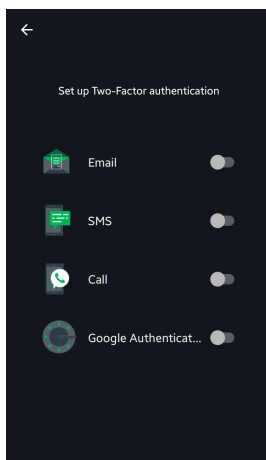

- You will have 3 to 4 step challenge
- You need to provide the exact word each time
- That's how you will confirm your recovery phrase

## 7. PIN

Add a 6-digit PIN code to protect your wallet. It should be something you can remember. You can write it down next to your recovery phrase for your convenience.

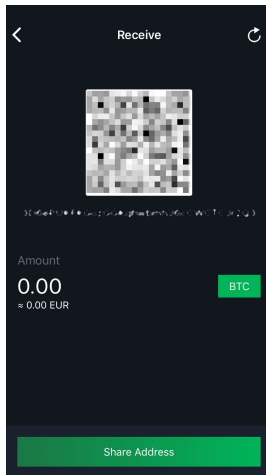

It's not recommended to 'skip' this step.

## 8. Two-Factor authentication

Activate one or more of them by your choice (optional). What's available:

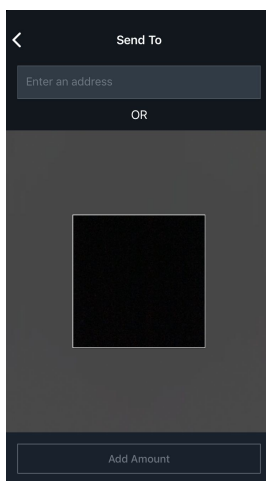

- Email
- SMS
- Call
- Google Authenticator (requires more time to set up)

## 9. Bitcoin Address

To buy Bitcoin from BitIreland.ie you need to provide a valid Bitcoin address of your wallet. At the top right of your screen you can generate a new address (if you wish):

1. Open the app
2. Go to your dashboard, click on 'Receive'
3. Tap on the Bitcoin address (under the QR code)
4. Copy (it's automatic) and paste it in your order

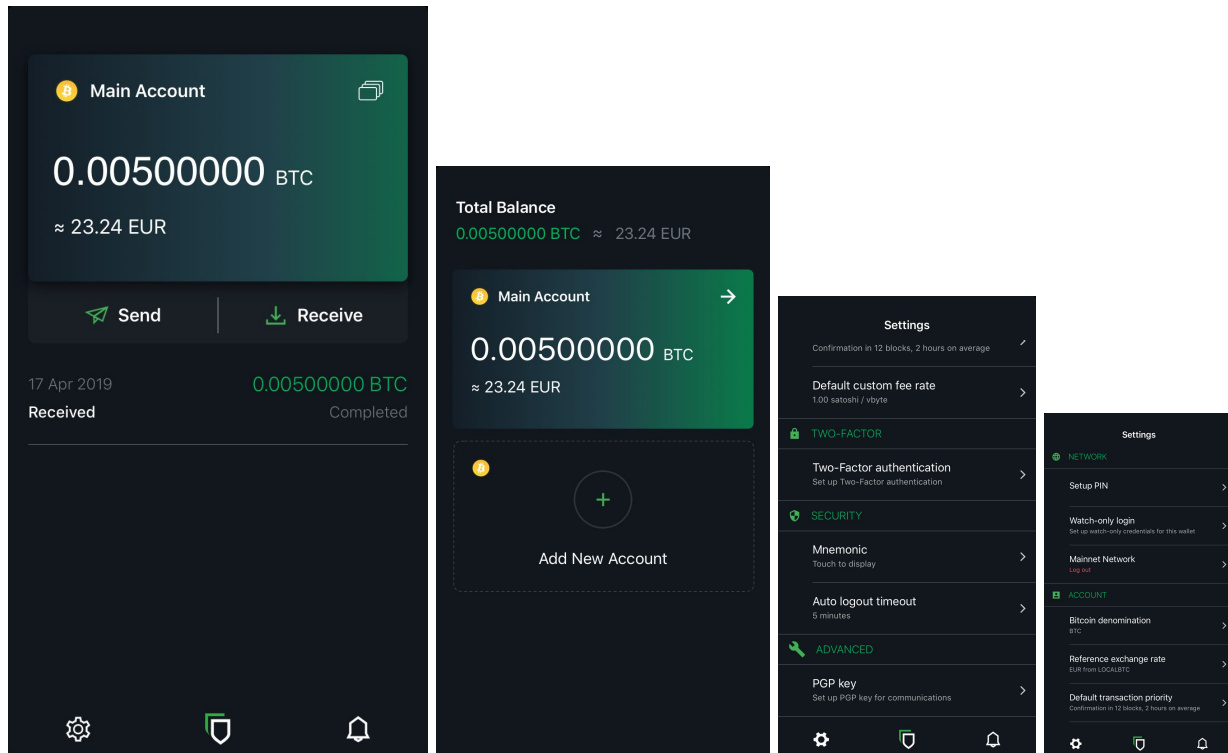

## 10. Send/Sell Bitcoin

It's pretty much the same process, but in your 'Dashboard' click on Send. Then you will see two options:

- Field to add the receiver BTC address
- QR code scanner
